OUR CORE SERVICES

- ✓ Railway Safety Audits
- ✓ Metro Rail Safety & Security Audits
- ✓ Industrial Safety Audits
- ✓ Facility Safety & Security Assessments
- ✓ Fire & Life Safety Audits
- ✓ Operational Risk Assessments
- ✓ Disaster Preparedness & Emergency Response Audits
- ✓ Security Vulnerability Assessments
- ✓ Occupational Health & Safety Audits
- ✓ Infrastructure & Critical Asset Protection Reviews
- ✓ Safety Management System (SMS) Evaluation
- ✓ Regulatory Compliance & Governance Audits
- ✓ Business Continuity & Crisis Management Assessments
- ✓ Environmental, Health & Safety (EHS) Reviews
- ✓ Safety Training, Capacity Building & Technical Advisory Services

RAILWAY & TRANSPORTATION EXCELLENCE
Strengthening the safety ecosystem of Indian Railways, Metro Rail Systems, High-Speed Rail, Dedicated Freight Corridors, Railway Stations, Workshops, Depots, Infrastructure Assets and more.

www.railsafety.co.in **SAFE TRACKS • STRONG NATION • SECURE FUTURE** Creating a Culture of Safety, Security, Compliance & Operational Excellence

AIRSC Safety Audit Service (ASAS), a specialized unit of the All India Rail Safety Council (AIRSC), is a premier professional organization dedicated to delivering comprehensive Safety, Security, Risk Assessment, Compliance, and Operational Audit Services across the railway, metro rail, transportation, industrial, infrastructure, energy, manufacturing, healthcare, logistics, commercial, and public sectors.

Established with the vision of promoting a proactive safety culture and world-class operational excellence, AIRSC Safety Audit Service provides independent, systematic, and technically competent assessments that enable organizations to identify hazards, mitigate operational risks, strengthen security systems, ensure regulatory compliance, and continuously improve organizational resilience.

Backed by experienced safety professionals, railway experts, engineers, disaster management specialists, security consultants, and risk management professionals, AIRSC adopts internationally recognized methodologies and industry best practices to evaluate safety performance, operational preparedness, emergency response capability, physical security, cyber resilience, and business continuity.

Business Continuity & Crisis Management Assessments

Environmental, Health & Safety (EHS) Reviews

Safety Training, Capacity Building & Technical Advisory Services

Railway & Transportation Excellence

As a specialized initiative of the All India Rail Safety Council, AIRSC Safety Audit Service places particular emphasis on strengthening the safety ecosystem of Indian Railways, Metro Rail Systems, High-Speed Rail Corridors, Dedicated Freight Corridors, Railway Stations, Workshops, Depots, Rolling Stock Maintenance Facilities, Railway Construction Projects, Logistics Parks, Freight Terminals, and Rail Infrastructure Assets.

Our multidisciplinary audit framework evaluates operational safety, signalling and communication interfaces, station safety, passenger protection measures, level crossing safety, emergency preparedness, disaster response capability, occupational safety, infrastructure integrity, security management, and operational resilience to support safer and more efficient railway operations.

AIRSC Safety Audit Service is committed to helping organizations build a culture where Safety, Security, Quality, Compliance, and Risk Management become integral components of sustainable growth. Through professional audits, technical expertise, practical recommendations, and continuous improvement initiatives, we assist organizations in protecting people, infrastructure, assets, operations, and reputation while supporting India's vision of Viksit Bharat 2047, Atmanirbhar Bharat, Digital India, and Safe, Smart & Sustainable Transportation Systems.

AIRSC Safety Audit Service stands as a trusted partner in delivering professional safety assurance, integrated security solutions, operational excellence, and risk-based decision-making—creating safer workplaces, resilient infrastructure, and a secure future for India's transportation and industrial sectors.

All India Rail Safety Council Safety Audit Services

Our Services

At All India Rail Safety Council, we are committed to ensuring the highest standards of safety in the rail industry. Our expert team provides a comprehensive range of services to enhance operational safety, mitigate risks, and ensure compliance with regulatory requirements.

Rail Safety Audit

We conduct thorough rail safety audits to identify potential hazards, ensure adherence to safety protocols, and recommend best practices for a safer railway environment.

Fire and Safety Emergency Response

Our specialized team is equipped to handle fire and safety emergencies with prompt and effective response strategies to minimize risks and safeguard lives and assets.

Fire and Safety Audit

Our fire and safety audits help organizations assess their fire prevention measures, ensuring compliance with national and international safety standards.

Safety Training

We provide hands-on safety training programs tailored to industry needs, enhancing workforce awareness and preparedness to handle emergency situations.

Fire Fighting Equipment (FFE) Inspection with QR Code Integration

We offer detailed inspection of fire-fighting equipment (FFE) with advanced QR code integration for seamless tracking, maintenance, and compliance.

EHSS Audits (Environment, Health, Safety & Security)

Our EHSS audits assess and improve an organization's overall safety culture, ensuring a safe and sustainable workplace.

Accident Reporting & Investigation

We conduct detailed accident reporting and investigation services to determine root causes, prevent recurrence, and improve safety measures.

Behavior-Based Safety (BBS) Observation

Our BBS observation programs focus on analyzing and improving workplace behaviors to foster a proactive safety culture.

Risk Management

We offer risk management solutions to identify, assess, and mitigate risks in railway operations, ensuring a safer working environment.

Process Safety Management

Our process safety management services help organizations develop structured safety management systems to prevent hazardous incidents.

Advisory and Consulting Services

We provide expert advisory and consulting services to assist organizations in improving their safety policies, procedures, and compliance standards.

Safety Champions in Manpower Supply

We supply highly trained and experienced safety professionals who serve as safety champions in various industries, ensuring workplace safety and compliance.

For more details or to avail of our services, contact us today and ensure a safer railway environment with All India Rail Safety Council.
